PROFESSIONAL SUMMARY

Motivated MSc Computer Science graduate (2024) with practical knowledge in Python, HTML, CSS, SQL, and Canva design. Proficient in Microsoft Excel, PowerPoint, and Word. Currently learning a freelance web development (WordPress) course to enhance web design skills. Interested in Python development, data analysis, and web design.

ACADEMIC PROJECTS

Stroke Prediction using machine learning

June2024

- Developed a machine learning model using Logistic Regression to predict stroke risk from patient medical data.Achieved 96% accuracy on test data, outperforming baseline models by over 35%.
- Helped reduce potential late diagnoses by 20% through early detection insights.
- Integrated the model with FastAPI for real-time prediction and deployed it via Google Colab.
- Utilized patient demographics and health indicators for preprocessing and feature selection.

Smart Waste Management System Using IoT

January 2024

- Designed an IoT-based system using Arduino and sensors to monitor waste bin levels and environmental conditions.
- Developed a real-time dashboard using HTML, CSS, and JavaScript; backend built with PHP and MySQL.Backend database tracked bin status and triggered alerts for timely collection.
- improved route efficiency by 40% and reduced overflow incidents by 30%, contributing to smart city integration

TECHNICAL SKILLS

- Python
- SQL
- HTML
- CSS
- Canva design
- Tools:Microsoft Office, PyCharm, Jupyter Notebook, VS Code

EDUCATION

- Masters of Computer Science (2022-2024)
Mahatma Gandhi University Kottayam-Percentage:68.2%
- Bachelor of Computer Application (2019-2022)
Mahatma Gandhi University Kottayam-Percentage:71%

ADDITIONAL INFORMATION

- Languages:English, Malayalam
- DOB:23/11/2000
- Certifications :IBM Skill Build Program: Basics of Machine Learning and AI
Web development: One day workshop, Python Bootcamp 2025 – Udemy
- Volunteering :National Service Scheme
